

I have recommended an immediate denture as part of the treatment plan for your dental needs (full or partial upper, lower, or both).

WHAT TO EXPECT

This denture is fabricated using models of your mouth **prior** to your teeth being extracted and/or your bone structure being altered. Therefore, you must be aware that this denture is **only to service you until you have healed from your extractions** and can have a reline (remaking the inside of your denture) or fabrication of a new denture.

All new dentures require multiple adjustments once delivered. It is crucial to be aware that with an immediate denture or partial, many more adjustments are needed due to your healing bone and gums.

We will offer you a “look and see” appointment where you will get a chance to view your denture before it is processed. This appointment allows you to see the color and size of teeth used, but you will not be able to try in your denture.

WE ARE HERE TO HELP

Thank you for allowing us to care for your dental needs. I invite your questions concerning immediate dentures.

NEIL BHARGAVA

Dr. Bhargava opened Bhargava Family Dentistry in 2004. He and his highly-skilled staff of dentists and hygienists have performed thousands of crown restorations and other dental work here in Wichita.

MUST READ FIRST

Make sure you are well-informed before you elect to have this treatment done. Please read the document for **FULL DENTURES** or **PARTIAL DENTURES** (whichever applies to your treatment) to gain a full understanding of what to expect and the risks involved.
